Programme for Biotechnology in
Latin America and the Caribbean

"LATIN AMERICA BIOLOGY OF PARASITISM - LatAmBoP 2022"

Course

November 28 - December 9 2022

TARGET GROUPS

Typical students will be senior master's students, doctoral students, and postdoctoral fellows who are new to the field of parasitology. Applicants must hold at least a BSc or equivalent in a field relevant to the course (e.g. biology, biochemistry, medicine, veterinary medicine, public health or epidemiology). Additionally, the applicant must be a citizen or a permanent resident in a country located in Latin America. We will specifically evaluate how taking part of this training course will enhance human resources capabilities and institution-building in the context of regional integration. Specifically, we will prioritize students located in laboratories working in isolation, or newly established laboratories, with little ton of expertise in the field of molecular parasitology represented in their institution, region or country.

APPLICATION

Interested applicants from the Latin American and Caribbean regions must apply via the following link

<https://www.icgeb.org/biology-of-parasitism-course-uruguay-2022/>

Contact: mfrancia@pasteur.edu.uy

Deadline: July 31st, 2022

COORDINATOR

PhD Maria E. Francia

"LATIN AMERICA BIOLOGY OF PARASITISM - LatAmBoP 2022"

November 28 - December 9

CONFIRMED SPEAKERS

Dr. Sheila Cristina Nardelli
Instituto Carlos Chagas,
Brazil

Dr. Lilach Sheiner
University of Glasgow,
Scotland

Dr. Érica Dos Santos Martins
Universidade Federal de Minas Gerais,
Brazil

Dr. Sergio Angel
Universidad Nacional de San Martín
Argentina

Dr. Andrea Rodrigues Avila
Instituto Carlos Chagas,
Brazil

Dr. Maryse Lebrun
Université de Montpellier,
France

Dr. Boris Striepen
University of Pennsylvania,
USA

Dr. Hugo Bisio
University of Geneva,
Switzerland

Dr. Omar S. Harb
