United Nations University Institute for Integrated Management of Material Fluxes and of Resources (UNU-FLORES)

As part of the United Nations University (UNU), the Institute helps build a bridge between the academic world and the United Nations. UNU-FLORES develops strategies to resolve pressing challenges in the area of sustainable use and integrated management of environmental resources such as water, soil, and waste. Focusing on the needs of the UN and its Member States, particularly developing countries and emerging economies, the Institute engages in research, capacity development, advanced teaching and training, as well as dissemination of knowledge. In all activities, UNU-FLORES advances a Nexus Approach to the sustainable management of environmental resources.
