

Webinar

# Sustainable Lifestyles for Green Recovery -Covid-19 and the SDGs-

The outbreak of Covid-19 has had serious economic, environmental, and social implications around the world. Reflecting on such sudden and serious challenges, societies are shifting towards embracing the “new normal,” including fundamental changes to life, work, and interactions. The webinar will provide insights from various sectors on a way forward for a greener and more resilient society including lifestyle changes as well as generate discussions on how societies can build back better through individual and collective actions.
