

ISAP 2015

International Forum for Sustainable Asia and the Pacific: ISAP

Solutions for Change: Forging Multi-stakeholder Partnerships towards 2030

Asia and the Pacific have seen increased GHG emissions in recent years, with the impact being felt across the region. We must take action to mitigate these emissions and cope with the adverse effects of climate change, as well as securing a path to sustainable development for society as a whole.

This year, the global community expects to reach two major milestones for climate change and sustainable development - future climate regime and sustainable development goals (SDGs) until 2030.

ISAP2015 will invite leaders, experts and representatives for up-to-date discussions on how to forge multi-stakeholder partnerships which go beyond levels and sectors to meet the climate change targets and SDGs as one overarching goal. Partnerships can bring about innovative and practical solutions that enhance lifestyle changes as we move towards sustainable society.

Tuesday
28 July
2015

» 9:30 - 17:30

Wednesday
29 July
2015

» 9:30 - 17:30

Venue
PACIFICO YOKOHAMA
(Yokohama, Japan)
