Japan Water Style Summit with CDP's Global Water Forum 2015

Press Release

15 October 2015

DATE + TIME: Thursday, 22 October 2015, 1:00 p.m. to 5:45 p.m.

VENUE: U Thant International Conference Hall, United Nations University, 53-70 Jingumae 5-chome, Shibuya-ku, Tokyo 150-8925

ORGANIZER: Ministry of the Environment of Japan (MOEJ)

CO-ORGANIZERS: UNU Institute for the Advanced Study of Sustainability (UNU-IAS) and CDP

LANGUAGES: Japanese and English (simultaneous interpretation will be provided.)

You are cordially invited to attend “Japan Water Style Summit with CDP’s Global Water Forum 2015”, to be held on 22 October 2015 at the United Nations University in Tokyo.

This summit aims to promote various efforts on water circulation and other water-related issues in Japan, and introduces the Japanese Ministry of the Environment’s “JAPAN Water Style Vision”, which encourages different stakeholders including the private sector and local governments to work together to improve water circulation.

This event, to be co-organized with CDP, will also include CDP’s Global Water Forum 2015, which will showcase global companies’ work in water risk management, and share the perspectives of leading global investment organizations that evaluate such efforts. There will also be a panel discussion on how the business sector should manage water risks, as well as on ways of raising awareness of water circulation issues in Japan.

For more information and the event programme, please visit the event page on the UNU-IAS website: <http://ias.unu.edu/en/events/upcoming/japan-water-style-summit.html#overview>

To register for the event, please send an email to geoc@unu.edu with your contact information (name, organization and telephone number).

Journalists who have questions, or who prefer to register by phone, may contact Ms. Hana Takebe, UNU-IAS (geoc@unu.edu, +81 3 5467 1212).
