Keyword for Successful of SDGs

Strong ownership from multi-stakeholders (local government, CSO, universities, marginalized groups)

Swift from BAU into innovative approach (transformative, interlinkages, multi-sector)

Inclusive (recognition, expression and participation; co-governance; co-creation, co-finance, co-implementation, etc)

What Is Needed

Politically Correct

Commitment Politic from National and Local Leader
Reflect The Priorities of The President

Technically Correct

Accelerate and Improving the ambition of Development Plan

Socially Correct

Involving All Stakeholders and Ensuring “Leave No One Behind”

But How...?

In Fact...

SDGs is not giving a big political incentives to the politicians

- SDGs as a global agenda

- Political transition in 2014

- SDGs does not provide practical tools, only the outcome

Business as Usual Approach from The Bureaucracy

- Failed to deliver of program development

- Lack of coordination among ministry

Lack of Capacity of CSOs

- Financing

- Capacities to work together with other stakeholders
