

# International Workshop on Biodiversity and Ecosystem Services Scenarios in Asia-Pacific Region

Date: 20 July 2015

Venue: 5F Elizabeth Rose Conference Hall, United Nations University  
Institute for the Advanced Study of Sustainability (UNU-IAS)

5-53-70 Jingumae, Shibuya, Tokyo 150-8925, JAPAN

Language: English

## Summary

The role of scenarios and models is to explore plausible future paths of the human society and the consequences of these paths for biodiversity and ecosystem services. A wide variety of approaches and methods have been developed to create scenarios of plausible pathways or envision desired endpoints. These scenarios can be used to develop a broad range of models and policy options to project the impacts of changes in key drivers on biodiversity and ecosystem services, and explore scientific as well as policy needs/gaps under different scenarios.

In this workshop, we will share research findings on developing future scenarios in Asia-Pacific region with specific attention on integration between indigenous and local knowledge and scientific knowledge through multi-stakeholder participation.

Organizers: ES-Scenario Project, UNU-IAS  
Funders: Japan Science and Technology Agency (JST) for Future Earth initiative, Belmont Forum

## Programme (13:30- - 18:00)

Welcome remarks

13:40 – 16:10 Keynote Presentations

- Prof. Lin Zhen (Chinese Academy of Sciences)
- Dr. SoEun Ahn (Korea Environment Institute)
- Dr. Kenneth J. Bagstad (U.S. Geological Survey)

Coffee Break

16:30 – 18:00 Presentations

- Key Drivers and Future Scenarios in Asia-Pacific
- Basic Frame and Settings of Future Scenarios
- Assessment models for ecosystem service and human well-being
- Indigenous and local knowledge and governance of natural capital

## Registration

Registration is free and open to the public.

To register, please contact at:

Chiho Kamiyama

address: 5-53-70 Jingumae, Shibuya, Tokyo 150-8925

Tel: +81-(0)3-5467-1212, Fax: +81-(0)3-3406-7347
