LOCAL RECRUITMENT
(Kanazawa, Ishikawa)

VACANCY ANNOUNCEMENT

Research Associate
UNU-IAS Operating Unit Ishikawa/Kanazawa (UNU-IAS OUIK)
(Consultant Contract - CTC)

Organizational Unit : United Nations University – Institute for the Advanced Study of Sustainability (UNU-IAS)
Reference Number : 2020/UNU/IAS/CTC/RA/84
Closing Date : 30th November 2020

About UN University

For the past four decades, UNU has been a go-to think tank for impartial research on the pressing global problems of human survival, conflict prevention, development, and welfare. With more than 400 researchers in 13 countries, UNU’s work spans the full breadth of the 17 SDGs, generating policy-relevant knowledge to effect positive global change. UNU maintains more than 200 collaborations with UN agencies and leading universities and research institutions across the globe.

UNU Institute for the Advanced Study of Sustainability (UNU-IAS)

UNU-IAS is a UNU institute based at the university’s headquarters in Tokyo, dedicated to advancing global efforts towards a more sustainable future. UNU-IAS serves the international community through policy-relevant research, and capacity development focused on sustainability, integrating its social, economic, and environmental dimensions. The activities of the institute are in three thematic areas: sustainable societies, natural capital and biodiversity, and global change and resilience. The work of UNU-IAS is directed towards priority issues for the UN system and Member States, contributing to high-level policymaking and debates to address problems of global concern. UNU-IAS Operating Unit Ishikawa/Kanazawa (UNU-IAS OUIK)

The United Nations University Institute of Advanced Studies Operating Unit Ishikawa/Kanazawa (OUIK) was established in April 2008 with strong support by local governments of Ishikawa Prefecture and Kanazawa City in Japan. OUIK has provided local and regional input into UNU’s sustainable development and international cooperation efforts in collaboration with other organizations, including UN agencies, academic institutes and local partners by implementing research on sustainable utilization of biodiversity and ecosystem services. OUIK also aims at developing communication and networks with local stakeholders through public outreach and capacity building while sharing information about international trends.

UNU-IAS OUIK is seeking a Research Associate who will engage in the coordination of research activities and policy development with local and international stakeholders involved in sustainable tourism and biocultural diversity.

Responsibilities

Under the overall guidance of the Director of UNU-IAS, and under the direct supervision of the OUIK Director, the Research Associate will be based in Ishikawa Prefecture as a resident facilitator to promote biocultural diversity conservation in Noto GIAHS area and to research the SDGs localization/localization of sustainable tourism in Ishikawa Prefecture. The Research Associate will assist in the implementation of the overall goals of the Institute as well as the operation of the Operating Unit. Specific tasks will include the following:

- Research the localization of sustainable tourism, whose concepts were developed by UNWTO and UNESCO, and engage in its dissemination, considering the impact of Covid-19
- Engage in comparative research on policies of sustainable tourism development and conservation and the governance for sustainable tourism in the Ishikawa prefecture.
- Engage in research on, assist in the localization of the UNESCO’s culture indicators for SDGs to Japan, and necessary coordination for their dissemination among stakeholders
- Assist in and coordinate for any other duties related to cultural resource management and sustainable city and infrastructure development when required
- Compile and translate relevant documents including event reports.
- Assist in public outreach of OUIK by SNS
- Perform any other duties, as may be assigned or required

Required qualifications

- A Master’s degree or equivalent in relevant fields of biodiversity, landscape management, environmental studies (including social science), or public policy
- Familiarity and interest in current issues on SDGs localization in sustainable tourism and biocultural diversity
- At least two (2) years of work experience at academic or research institution(s) government institution, consultancy firm or other relevant organization(s)
- Excellent writing and communication skills both in English and Japanese
- Knowledge of another UN official language is an asset
• A good team player with strong interpersonal skills, demonstrated by the ability to work in a multi-cultural, multi-ethnic environment with sensitivity and respect for diversity
• Excellent analytical skills as well as demonstrated ability to multi-task and to manage own workload and schedule to deliver timely results

UNU is committed to diversity and inclusion within its workforce, and encourages all candidates, irrespective of gender, nationality, religious and ethnic backgrounds, including persons living with disabilities to apply and become part of the organization.

UNU has a zero-tolerance policy on conduct that is incompatible with the aims and objectives of the United Nations and UNU, including sexual exploitation and abuse, sexual harassment, abuse of authority and discrimination.

Remuneration

Remuneration will be JPY 17,000 per day. There are no other fringe benefits.

Appointment duration

The successful candidate shall work under the Consultant Contract (CTC) at a rate of five days per week for the above-mentioned project. No consultant shall provide services for more than twenty-four (24) months in a thirty-six (36) month period.

This is a locally recruited post; no relocation expenses or allowances apply. The successful candidate will be employed under a local contract and will not hold international civil servant status nor be a “staff member” as defined in the United Nations Staff Rules and Regulations. UNU does not sponsor a working visa for this position.

Starting Date: As soon as possible.

Application Procedure

Interested applicants should submit their application online through Impactpool and upload the following documents there:

• A cover letter setting out how your qualifications and experience match the requirements of the position
• A curriculum vitae
• A brief resume in Japanese
• An indication of the reference number of the vacancy announcement (2020/UNU/IAS/CTC/RA/84).

Please note that applications received after the closing date will not be considered.
