About United Nations University

The United Nations University (UNU) is a global think tank and postgraduate teaching organisation headquartered in Japan. The mission of the UN University is to contribute, through collaborative research and education, to efforts to resolve the pressing global problems of human survival, development, and welfare that are the concern of the United Nations, its Peoples, and Member States. UNU encompasses 13 research and training institutes and programmes located in 12 countries around the world.

United Nations University Institute for Integrated Management of Material Fluxes and of Resources (UNU-FLORES)

As part of the United Nations University (UNU), the Institute helps build a bridge between the academic world and the United Nations. UNU-FLORES develops strategies to resolve pressing challenges in the area of sustainable use and integrated management of environmental resources such as water, soil, and waste. Focusing on the needs of the UN and its Member States, particularly developing countries and emerging economies, the Institute engages in research, capacity development, advanced teaching and training, as well as dissemination of knowledge. In all activities, UNU-FLORES advances a Nexus Approach to the sustainable management of environmental resources.
