CIDOB, CIDOB, Barcelona Centre for International Affairs, www.cidob.org

CIDOB is a Barcelona-based international research centre engaged in the study of, and research into international affairs. Its mission is to contribute towards the analysis of global-scale challenges by means of a methodology based on analysis and debate. From a critical standpoint vis-à-vis an international context in which the basic rights of the population are far from being guaranteed, CIDOB upholds an internationalist, pro-European vision that includes exchanges going beyond the bounds of geographic frontiers.
